## QUALITY MANAGEMENT SYSTEM

HEK has developed and implemented a quality management system in order to document the company's best business practices, better satisfy the requirements and expectations of its customers and to improve the overall management of the company.

The quality management system of HEK meets the requirements of the international standards and Client required standards. This system addresses the design, development, production, installation, Maintenance & servicing of the equipments or Instruments.

This method is also used externally to introduce our quality management system to our customers and other external organizations or individuals. The method is used to familiarise them with the controls that have been implemented and to assure them that the integrity of our quality management system is maintained and focused on customer satisfaction and continuous improvement.
